The newly constructed natural gas system in the town of Waveland is now in operation and residents can apply for this service. Customers who place their application in at the town hall before March 1 will be furnished with gas service line to the property line.

Customers who file their application following this date will be charged \$5 for the installation of any new service line to the property boundary.

Mayor Garfield Ladner, who today turned on the valve at a regular station in Waveland, said this was "the best thing that had ever happened to the town."

Ed Gibson, general manager of the gas system, said, "We have quite a few applications now and should get many more now that we are able to furnish the gas."

## Bus Commuter Service to Bay Is Discussed

Laurence A. Sauer, Waveland resident, has communicated with H. Vance Greenall, president of the Southeastern Greyhound Bus lines in an attempt to establish commuter service via bus transportation.

He addressed a letter to Greenall on Dec. 10, with copy sent to the Interstate Commerce Commission, and a further communication to the U.S. Government, Division of Motor Carriers, Washington, D. C.

In his letter to Greenall he conveyed the fact that a number of persons are now using bus travel for daily commuting, as well as a number of others who travel by private car to and from the city of New Orleans to daily employment. Under the prevailing schedules there is a great loss of time for those who must board a bus at 5:03 a.m. to enable them to be in the city for 8 a.m. work.

These persons arrive in New Orleans at 6:35 a.m. They finish their working schedule at 5 p.m. and must rush, if time permits to enable them to board a 5:15 p.m. bus to return to the Coast.

In response to Sauer's letter, Greenall advised publicity stating that should a sufficient number of persons request the addition of a commuter bus, he would recommend a trial run in the early spring to the Southeastern Greyhound line. In his communication to the Division of Motor Carriers, Washington, Sauer advised of the reply from Greenall, but contends that this is no answer to the problem, and also the time element between his December letter to an indefinite spring trial run would be too long a delay.

He proposed an entire survey be made of the commuting population of the Gulf Coast to determine and verify the need for a bus commuter service with hours scheduled to meet the time requirements of the 8 to 5 worker in the city of New Orleans.

## ST. ROSE DE LIMA FOUNDER DIES

Rev. Francis Baltes, SVD, one-time pastor here in Bay St. Louis, was buried Tuesday, Feb. 1 at St. Augustine's Seminary. A solemn pontifical requiem high mass sung by His Excellency, Richard O. Gerow, Bishop of Natchez immediately preceded the absolution and burial ceremonies.

The founder and first pastor of St. Rose de Lima Church on Necaise Ave. died in a Vicksburg hospital on Friday afternoon, Jan. 28. His death came after years of lingering illness which all but halted the priestly and pastoral duties of his final years. The amiable priest, well remembered by many long time residents of this city, was in his 70th year.

On Monday in Vicksburg, at St. Mary's Church, of which Father Baltes was pastor, a Solemn Requiem high mass was sung by Rev. Joseph Holken, SVD, His Excellency, Bishop Gerow delivered the funeral sermon at that occasion. The priest's remains were then brought to this city, the scene of his earliest pastoral activities, to be buried in the cemetery of the local seminary.

The pontifical requiem mass at St. Augustine's was attended by about 40 priests who gathered from over Mississippi and Louisiana. Parishioners and friends of Father Baltes came here from Vicksburg for the mass and burial. Local residents, parishioners and students at St. Rose de Lima filled the seminary chapel in paying final respects to the priest who years ago pioneered the church and school on Necaise Ave.

Father Baltes was born in 1884 in Rastwiler near Trier, Germany. In 1897 he determined on the missionary-priest career and entered a seminary of the Divine Word Missionaries. His ordination came in 1909. After ordination he was assigned to Africa's west coast until 1914.

The Divine Word Missionaries meanwhile were turning to the Southern United States as another scene of labor and Father Baltes was eventually called to this work.

He was at Greenville, Miss. when what is now the local seminary got under way in Greenville. When the newly founded institution was moved here from Greenville, the young priest came along.

The year 1921 found him both teaching future priests at St. Augustine's and caring for the spiritual needs of the local colored Catholics. In connection with the latter activity, he built on Necaise Ave. a church and a school—the present day St. Rose de Lima Parish.

Eventually the pastoral duties at the parish claimed so much of the energetic priest's time that he was released from seminary classes to be St. Rose de Lima's first pastor. Local parishioners readily accept the priest's kindlyness and devotion.

After turning this local parish fatherhood over to Jack Johnson he gave his labors to the Holy Ghost Parochial High School. From Jackson he went to Vicksburg in 1948 where he again established a parochial high school.

At his death the priest left behind him an enviable record of 35 years devoted to pastoral work in all its phases. He was especially solicitous for the schooling of his spiritual charges.

## VOLUNTEER WORKERS FOR CANCER FETED

The main effort being made today in the fight against cancer is by volunteer workers throughout the United States in cooperation with the American Cancer Society. In Mississippi, recognition will be given these volunteers at the Annual Meeting of the American Cancer Society, Mississippi Division, being held Feb. 12 at the Robert E. Lee Hotel in Jackson.

At the banquet scheduled for 7:30 Feb. 1 in the Arlington Room of the Robert E. Lee Hotel, Mrs. Elizabeth N. Waters, Executive Vice-President of the American Cancer Society, Mississippi Division, will make gold pin awards to county chairmen who have served consecutively for ten years; have carried on a year round program of education and service in their home counties; and who have had successful campaigns during the ten year period.

Those so honored are selected by an awards committee headed by George C. Wallace of Jackson.

In addition, citations will be made of all volunteers other than county chairmen who have served consecutively for a five or ten year period in the program of cancer control and meeting the same criteria. These citations will be made at the luncheon on Feb. 2 and will include volunteers from seventeen counties. Other awards will be made to Dr. Felix J. Underwood, Jackson; Dr. Emma Von G. Gay, Biloxi; and Mrs. E. W. Harker of Hattiesburg for having served as volunteers with the ACS for a period of seventeen years.

Three thousand five hundred Mississippi second-grade children in three counties (Hinds, Jones and Warren), received three injections each of Salk polio vaccine.

Mrs. Walter Hava and Mrs. Roy Dennis have both been confined to their homes with illness.

## PLANTERS' MEETING

Farmers who have not produced rice during the last five years but who plan on growing rice in 1955 have until Feb. 15 to file an application for a 1955 rice acreage allotment with the County Agricultural Stabilization and Conservation Committee. Fubush Lee, Chairman of the committee, announced today.

Since acreage allotments for rice will be in effect for the 1955 crop, compliance with the farm rice acreage will be a condition of eligibility for price support.

If growers voting in the rice marketing quota referendum on Jan. 28, 1955, approve quotas for the 1955 crop, producers who harvest a rice acreage in excess of the farm acreage allotment will be subject to a marketing quota penalty as well as being ineligible for price support on their rice.

Failure to comply with the farm rice acreage allotment will also make the farmer ineligible for Agricultural Conservation Assistance.

All applications for rice acreage allotments for new farms received by the county ASC Office through Feb. 15, 1955 will receive consideration.

Application forms are available at the County ASC Office located in the old Creamery Building, Bay St. Louis.

Farmers filing application must supply the following information: The name and address of the owner and operator of the farm; The location of the farm; The acreage of tillable land on the farm suitable for rice for which water and other facilities for irrigation are available; Experience of the applicant in growing rice; The rice producing equipment owned by the applicant.

The delightful party was given at the home of Mrs. Otis on S. Beach. The hostess received her guests in a big colored silk spring frock made on fitted princess lines.

In addition to the Camellia displays in the Otis home, which were a part of the club display, there were numerous arrangements of irises and other spring flowers.

The tea table in the dining room was centered with the blue ribbon winner "Oasis" arrangement, done by Mrs. Thomas Schaefer. It was an arrangement of pink perfection blooms, with palmetto leaves, on a silver tray, complete with sand for the desert floor and a camel gazing at the beauty of the lush flowers. This was centered between sprays of the palmetto to which were attached more of the pink Camellia blooms, and flanked with silver candle holders with lighted tapers.

## MARCH OF DIMES HEAD APPEALS TO WORKERS TO REDOUBLE THEIR EFFORTS

With less than a week remaining in the drive for funds, Dr. Felix J. Underwood, State Chairman of the March of Dimes, has appealed to all volunteer workers to redouble their efforts to make this campaign the great success it must be in the polo war.

"Progress reports are encouraging, but our tremendous task is far from finished," said Dr. Underwood. "The final effort must have even more steam if we are to complete our biggest job. Every man, woman and child in Mississippi must be approached and given an opportunity to contribute to this all-out fight."

"Polio does not let up for even a minute in its relentless prowling for victims. We have two cases already reported in 1955 in our state. March of Dimes contributions are tagged for polio prevention (vaccine), patient aid, research and education."

The National Foundation for Infantile Paralysis has set \$84,000,000 as the absolute essential figure to be reached in the January drive if the polio-fighting needs are to be met.

Iron lungs, rocking beds, hot-pack machines, nurses, physical therapists and doctors have been rushed to our state for emergency service during each of the last six years.

To photograph the spectacular jungle sequences for Ealing Studios presentation of "West of Zanzibar," a Universal-International Technicolor release opening next Sun & Mon. at the Star Theatre, two complete production units were located in East Africa. The documentary backgrounds for this adventurous tale of ivory poachers were filmed several weeks in advance when harbor scenes and activity involving a fleet of Arabian dhows were "shot" before the show trading season came to an end.
